OJUS VAYU Air Compressors

Air compressors engineered to overcome most application challenges

Engineered to enhance productivity and fuel efficiency

Proven reliability

OJUS VAYU Air Compressors Geo Sense Series

OJUS VAYU Air Compressors 680 XX

- Automatically and seamlessly adjusts the drilling pressure to maintain optimum bailing velocity for varying geographic and depth requirements
- Maintains penetration rate throughout the drilling cycle
- Can be changed to conventional two-pressure settings by a single valve operation
- Hydrostatic fan drive reduces average fan power consumption by 50% to enhance fuel efficiency
- Real time performance monitoring through “OJUS Live “ Mobile App

- Most powerful and largest compressor introduced in India market
- Ideally suited for larger diameter and higher depth drilling
- Three drilling pressure modes that optimize the compressor performance during starting, middle and final stages of drilling
- Hydrostatic fan drive reduces average fan power consumption by 50% to enhance fuel efficiency
- Real time performance monitoring through “OJUS Live “ Mobile App
